Congratulations Students for your Superb participation in this beautiful Fest 'OPUS'. All of you did a great job!

I would like to take the time to highlight a few points: I was highly impressed with the introductory speech by the dignitaries to the students. I found your performances scintillating. This time we got to see your potential and how well you carried yourself as true Gentleman & Lawrencian!

The success of this huge and historical event is a result of all your hard work and dedication. Your Energy and Enthusiasm on these two special days of 'OPUS' was hugely appreciated by all Students & Teachers of the participating school.

Bravo! Keep up the good work going! May God Bless each one of you!
