

# BREATHING BUDDIES

- ▶ This Isolation Center is basically an **Oxygen Parlour**, where Medical Oxygen will be given to Covid patients having oxygen saturation 90 and above.
- ▶ Patients with comorbidities and age **above 70 years will not be admitted**.
- ▶ No specialized treatment facility is available here, except for Medical Oxygen.
- ▶ While the patient is being given oxygen, the patient party has to arrange for the hospital bed in required cases.
- ▶ This is only a Make Shift Facility for basic oxygen support and the decision of the medical team will be final regarding the admission and discharge of a patient.
