Group – B

4. Answer the following questions.

3 x 5 = 15

4.1 Why are arranged marriages common in India ?

Ans: Arranged marriages common in India because of several reasons like pressure from the parents, poverty, lack of education specially in the rural areas where girls are forced to get married because making a career for them becomes least important.

4.2 Make a list of the reasons for why people marry .

Ans: People get married with an intension to settle themselves in their lives for a support in every aspect and companionship, for security, love and to have a family.

4.3 What are the advantages and disadvantages of a joint family?

Ans: The advantages are -

- One can learn to share things equally with others starting from favourite food items to happiness.
- People also learn the power of adjustment, sacrifice and still be satisfied.

- Can get the company and advice of the dear members during crisis.

The disadvantages are:-

- A joint family may lead to quarrel between the family members over the trivial issues like equal work sharing and expenses sharing etc.
- The individual personality development may get hampered due to the interference of elders in all kinds of personal things.
- One can lack of leadership and decision making qualities as head of the family will decide and does all the important decisions.

4.4 List any 4 mediums through the HIV virus get transmitted.

- Ans: 1. Contaminated blood from transfusions, operations, accidents,
2. Casual sex
3. Homosexuality.
4. Intra-venous drug use, non sterilised needles, razors.

4.5 What is an One – Parent Family ?

Ans: In a one parent family the single parent plays a double role lacks adult companionship & has to be self-reliant. Children are compelled to shoulder adult responsibilities earlier than usual. The lack of male or female influence (depending on whichever parent is missing) is a drawback for the children.

Group - C
