

ANSWER KEY – 19
TOPIC – NETWORKING

SUBJECT: COMPUTER APPLICATION
F.M.:15

CLASS: XII
DATE: 13.06.2020

➤ Choose the correct option:

(1X15=15)

1) What type of signal source is not used in wireless communication?:

- (a) Radio **(b) ultra violet** (c) infra red (d) microwave

2) Which type of wireless communication is unsuitable when cable setup is difficult or costly?:

- (a) Radio (b) ultra violet **(c) infra red** (d) microwave

3) Satellite communication uses:

- (a) Radio (b) ultra violet (c) infra red **(d) microwave**

4) A Satellite which has a time period same as the earth's rotation time, is called:

- (a) geo satellite (b) geometric satellite
(c) geostationary satellite (d) geosynchronous satellite

5) Artificial satellites use these devices to relay signals of a particular frequency – band:

- (a) transponders** (b) transmitters (c) transducers (d) transporters

6) The signal from the transmitting station to the satellite for microwave signals is called:

- (a) forward link **(b) uplink** (c) downlink (d) back link

7) Radio waves below 3MHz is termed as _____ waves:

- (a) ground** (b) sky (c) terrestrial (d) None of these

8) In _____ mode communication a clear line of sight is required between the transmitter and the receiver:

- (a) direct** (b) indirect (c) diffused (d) None of these

9) Radio waves above 3MHz is termed as _____ waves:

- (a) ground **(b) sky** (c) terrestrial (d) None of these

10) In _____ mode the light is bounced off the walls to reach an end-user:

- (a) direct (b) indirect **(c) diffused** (d) None of these

11) What antennas are used for terrestrial microwave communication?:

- (a) hyperbolic **(b) parabolic** (c) sphere (d) square

12) The signal from the satellite back to the ground antenna is called:

- (a) forward link (b) uplink **(c) downlink** (d) back link

13) A device used to provide a common connection point for network devices?:

- (a) NIC (b) Workstation (c) Printer **(d) Hub**

14) Any process that is carried out involving multiple computers in a network is called _____ computing:

- (a) group **(b) distributed** (c) additive (d) None of these

15) In networking NOS stands for:

- (a) Network Operating System**
(b) Network Operating Store
(c) Network Open Source
(d) None of these
