COMPREHENSION

Read the comprehension passage given below and answer the following questions.

FISH DAY

Sam is a fifteen-year-old boy. He loves animals and keeps his surroundings clean. One day after school, Sam looked at a poster on the library wall. It said help was needed to clean up the pond at Sun Park on Fish Day. The fishes were dying as the people were littering the pond. So, Sam wrote down the telephone number from the poster. The next day, Sam told his class teacher and class about the poster and the fishes. On Saturday, his class teacher Mrs Webb, and the children went to Sun Park. Mr Johnson met them by the pond. He gave out some plastic bags, nets, buckets and rubber gloves. And divided the children into groups. Each group was given different work. Nina's group had to put the bin bags full of litter in the bin while Sam's group had to pick up litter around the pond. Mr Johnson gave each child a plastic bag full of colourful fishes. Everyone followed Mr. Johnson to the pond in order to release the fishes in the clean pond. The fishes enjoyed their new clean home.
