

ST. LAWRENCE HIGH SCHOOL

A JESUIT CHRISTIAN MINORITY INSTITUTION

27, BALLYGUNGE CIRCULAR ROAD

2nd Term – 2020

Answer Worksheet 4

Topic: Numbers up to 100, Subtraction Story Sum

Sub: Arithmetic

Class: 1

Date: 25.11.2020

1. Vinay is the owner of a computer repair shop. He had 78 computers to repair. He had repaired 52 computers in September and kept the remaining computers to repair in October. How many computers did he repair in October?

$$\begin{array}{r} \text{Numbers of computers to repair} \\ \text{Numbers computers repaired in September} \\ \therefore \text{Numbers of computers repaired in October} \end{array} \begin{array}{r} = \\ = \\ \end{array} \begin{array}{r} \text{T} \quad \text{O} \\ 7 \quad 8 \\ - \underline{5 \quad 2} \\ \underline{2 \quad 6} \end{array}$$

Answer: He had repaired 26 computers in October.

2. Akshat collected 88 stickers. He gave 48 stickers to his friend Nehan. How many stickers was he left with?

$$\begin{array}{r} \text{Numbers of stickers collected} \\ \text{Numbers of stickers given to Nehan} \\ \therefore \text{Numbers of stickers left} \end{array} \begin{array}{r} = \\ = \\ \end{array} \begin{array}{r} \text{T} \quad \text{O} \\ 8 \quad 8 \\ - \underline{4 \quad 8} \\ \underline{4 \quad 0} \end{array}$$

Answer: 40 stickers were left with Akshat.
