CLASS – IV

ANSWER: WORKSHEET – 17

DATE: 06.10.2020

SUBJECT – ENGLISH TEXT

LESSON – THE BUTTERFLY

---

**Answer the following questions:-**

**1. Who wished for a bride? Where did he look for?**

Ans: A butterfly wished for a bride, He wanted to choose a very pretty one from among the flowers. He looked very closely at all the flower-beds. He found that the flowers were seated quietly on their stalks. There were a great number of them and he did not want to take much trouble so he first flew on a visit to the daisy to take her help to choose his bride.

**2. Why did the butterfly first fly to the daisy?**

Ans: The butterfly first flew to the daisy as he thought her to be the cleverest woman of all the flowers. He wanted her help in choosing the flower as his wife. But the daisy did not answer him. He asked her a second time and then a third. But she remained silent. Then he did not wait any longer and flew away.

**3. Which were the other flowers the butterfly visited and what was the reason for not choosing any of them as one of his wife?**

Ans: The butterfly flew to a violet, but he found that it was a little too soft. Next he found a large family of lime-blossoms. But he felt they were too small. Then he found the apple-blossoms that looked like roses. He found that the apple blossoms that bloomed today might fall off the next day with the first wind that blew.

**4. Which flower pleased him most of all? What made him change his mind?**

Ans: The pea-blossom pleased him most of all as she was red, graceful and slender. The butterfly was just about to make her a marriage offer. He saw very close to her a pod with a dry flower hanging at the end. When the pea blossom was asked who she was, she replied that she was her sister. The butterfly then changed his mind and told the pea blossom that she too would be like her someday and so he flew away.
