A JESUIT CHRISTIAN MINORITY INSTITUTION
27, BALLYGUNGE CIRCULAR ROAD, KOLKATA - 700019

ANSWER: WORKSHEET- 12 2nd Term

Class: 3

Subject: SCIENCE

Date: 16.05.2020

HOUSING AND CLOTHING

1. Fill in the blanks.

- People living in different regions and climates make different kinds of house.
- Pucca houses are strong houses which are built of bricks and cement.
- Kutcha houses are weak houses which are built of mud and straws.
- Igloos are built with ice blocks.
- Stilts save the house from getting flooded.
- Hill stations have houses with sloping roofs.
- Houses should be swept and mopped every day.
- Waste materials and garbage must be put in closed dustbins.
- A good drainage system helps us to get rid of waste materials from the bathroom and kitchen.
- High roofs allow the free flow of air inside the house and keep it cool.

2. State whether True or False.

- A house should have no doors and windows. False
- The walls of the house must be thin. False
- A disinfectant must be added to the water used for mopping the floor. True
- Sunlight kills the germs and helps in saving electricity. True
- Drains must be cleaned regularly with drain cleaners. True
- Drains of kitchen and bathroom should be kept open. False
- Wire mesh on the windows allow insects to enter the house. False
- Open spaces make the house airy and gives children space to play. True
- Stilt houses are built in areas of heavy rainfall. True
- A short door opening and tunnel in front of the dome -structure stops the heat from inside the igloo to flow outside. True
