Solve the following:

1. Deron bought 207 ice- cream sticks. He distributed 198 ice- cream sticks among his friends. How many ice- cream sticks are left?

Number of ice- cream sticks Deron bought	307
Number of ice- cream sticks he distributed	- 198
.	-----
. . Number of ice- cream sticks left	109
	-----

Answer : 109 ice- cream sticks are left.

2. How many perfumes are there in 8 boxes, if each box has 36 perfumes?

Number of perfumes in a box	36
Number of boxes	x 8
.	-----
. . Number of perfumes in all	288
	-----

Answer: There are 288 perfumes in all.

3. India scored 397 points in the first round and 257 points in the second. How many points did India score in both the rounds?

Number of points scored in the first round	397
Number of points scored in the second round	+ 257
.	-----
. . Number of points scored in both the rounds	654
	-----

Answer: India scored 654 points in both the rounds.
