F. Put the words in the correct columns by gender:

dog, hen, tigress, boy, pen, doctor, cousin, book

Masculine	Feminine	Common	Neutral
Dog	Hen	Doctor	Pen
Boy	Tigress	Cousin	Book

G. Write a paragraph on 'Save Trees' (Model paragraph)

Trees play a significant role in our existence. They consume carbon dioxide and provide us with fresh oxygen to breathe. We get medicines, timber, wood, gum, fibre, rubber and so many other things from trees. They try to maintain environmental balance. For instance, when it gets too hot, the trees help in bringing rainfall. They fight severe climate changes. Trees make the mother earth look beautiful and relaxing. They nourish various life forms in many ways. Planting more trees will also add to the earth's natural beauty. Trees fight water pollution and prevent soil erosion. They prevent pollutants from flowing into water sources. The only way we can protect global warming and environmental pollution is by saving and planting trees. By saving trees we are saving ourselves.
