**SUB: GENERAL SCIENCE**

**CLASS 5**

**F.M. 15**

**TOPIC: SEDIMENTARY ROCKS**

**DATE: 17.04.2020**

---

**A. CHOOSE THE CORRECT OPTION:**

**15x1=15**

- \_\_\_\_\_ rocks cover the major portion of the earth's land surface.  
a) igneous      b) sedimentary      c) metamorphic
- Sedimentary rocks are formed from pebbles, sand, mud or clay that are \_\_\_\_\_ in oceans.  
a) deposited      b) arranged      c) originated
- The layers during the formation of the sedimentary rocks \_\_\_\_\_ together by minerals.  
a) mixed      b) cemented      c) obtained
- Certain kinds of Sedimentary rocks are formed from the \_\_\_\_\_ of tiny sea creatures.  
a) organs      b) wastes      c) shells
- Some kinds of sedimentary rocks are formed from \_\_\_\_\_ minerals that settle by the side of oceans.  
a) dissolved      b) existing      c) deposited
- \_\_\_\_\_ is a common sedimentary rock.  
a) pumice      b) marble      c) sandstone
- Sandstone mostly contains \_\_\_\_\_ grains.  
a) granite      b) quartz      c) obsidian
- The Red Fort in New Delhi is made of \_\_\_\_\_.  
a) sandstone      b) limestone      c) conglomerate
- \_\_\_\_\_ is a rock of uneven texture.  
a) marble      b) conglomerate      c) shale

10. Which sedimentary rock found mostly in the shades of grey and orange?  
a) Granite                      b) limestone                      c) conglomerate
11. \_\_\_\_\_ is used as an ornamental rock and for polishing ornaments.  
a) conglomerate                      b) obsidian                      c) sandstone
12. \_\_\_\_\_ is made up of clay and mud particles that are piled up in layers.  
a) limestone                      b) shale                      c) slate
13. Limestone is made up of a mineral called \_\_\_\_\_, which was once a part of animal shells.  
a) feldspar                      b) fossils                      c) calcite
14. \_\_\_\_\_ is used for making bricks and glass, and for separating pure metals from their ores.  
a) sandstone                      b) limestone                      c) chalk
15. The traces of ancient plants and animals found in rocks are called \_\_\_\_\_.  
a) fossils                      b) tonsils                      c) vessels
