

ST. LAWRENCE HIGH SCHOOL

OL 🐐

A JESUIT CHRISTIAN MINORITY INSTITUTION WORK SHEET – 38

Class: IX Sub: Life Science Date: 17.06.2020

Topic: Types of Nutrition

F.M.: 15

Choose the correct option:

(1x15=15)

- 1. On the basis of presence or absence of green pigment organisms are divided as :
 - a) Autotrophic and heterotrophic b)Heterotrophic c) Autotrophic and heterotrophic d) None of these
- 2. The organisms which use solar energy to prepare their own food :
 - a) Photoautotrophs b) Chemoautotrophs c) Saprophytes d) Parasites
- 3. Bacteria that can make organic food from simpler organic substances without using solar energy are called:
 - a)Autotrophs b) Photoautotrophs c) Chemoautotrophs d) All of these
- 4. The organisms which cannot manufacture their own food and obtain food from other substances are called :
 - a) Autotrophs b) Photoautotrophs c) Chemoautotrophs d) All of these
- 5. Heterotrophs include :
 - a) Parasites b) Saprophytes c) Symbionts d) All of these
- 6. Organisms that obtain food from a host is called :
 - a) Parasite b) Saprophyte c) Symbiont d) All of these
- 7. The specialized structure is parasites to obtain food from the host is called :
 - a) Rhizome b) Rhizoids c) Haustoria d) Roots
- 8. An example of total stem parasite is :
 - a) Monotropa b) Cuscuta c) Orobanche d) All of these
- 9. The scientific name of Bird's nest plant is :
 - a) Cuscuta b) Monotropa c) Orobanche d) Neottia
- 10. Insectivorous plants digest insects because they :
 - a) Obtain glucose from insects b) Obtain proteins from insects c) Energy produced outside the cells d) All of these
- 11. Example of Insectivorous plant is :
 - a) Pitcher plant b) Sundew c) Bladderwort d) All of these
- 12. Holozoic nutrition consists of :
 - a) Ingestion b) Digestion c) Egestion d) All of these

- 13. Animals which obtain food from dead and decaying organic matter :
 - a) Symbiotic b) Parasite c) Symbiont d)Saprophyte
- 14. Example of organisms for saprozoic nutrition is :
 - a) Spiders b) House flies c) Cockroach d) All of these
- 15. The process of removal of undigested product is :
 - a) Ingestion b)Egestion c) Digestion d) Holozoic nutrition
