Chapter- 4 – The Circulatory System

FM: 15

WORKSHEET – 25

(1x15=15)

- i) The muscles of the heart does not receive blood if _____ is blocked
(1) Pulmonary artery (2) Aorta (3) Coronary artery (4) Pulmonary vein
- ii) The complete blockage of blood supply to any part of the heart results in
(1) Heart attack (2) Cardiac arrest (3) Cerebral cortex (4) Cerebral stroke
- iii) A heart attack may cause
(1) Chest pain (2) Damage to heart (3) cease to beat (4) All of these
- iv) When the heart stops beating, it is called
(1) Heart attack (2) Cerebral attack (3) Cardiac arrest (4) Cerebral attack
- v) Which of the following is a cause of cardiac arrest?
(1) Leaking of blood vessel (2) Lack of Oxygen (3) Bursting of blood vessel (4) Brain haemorrhage
- vi) Which of the following is not a symptom of cardiac arrest?
(1) Unconsciousness (2) Abnormal breathing (3) ceased breathing (4) epileptic seizures
- vii) Cardiac arrest is treated with
(1) Anticoagulant (2) IV injection of tPA (3) Antiplatelet drugs (4) Chest compressions
- viii) Electric shocks are provided using
(1) Ventilator (2) Defibrillator (3) Patient monitor (4) CPAP
- ix) Which of the following is used to restore proper circulation?
(1) EEG (2) ECG (3) MRI (4) CPR
- x) The full form of CPR is
(1) Cardiopulmonary resuscitor (2) Cardiac pulmonary reviver (3) Cardiopulmonary reviver
(4) Cardiopulmonary resuscitation
- xi) Which of the following is a cause of cardiac arrest?
(1) Heart attack (2) Severe blood loss (3) Malfunctioning of the electrical conduction of the heart (4) All of these
- xii) When the heart beats too fast which of the following is felt?
(1) Panic attack (2) Throbbing of arteries (3) Palpitations (4) Hypertension
- xiii) In which of the following areas, palpitations cannot be felt?
(1) Chest (2) Throat (3) Neck (4) Thigh
- xiv) Which of the following is not a cause of palpitation?
(1) Low blood sugar (2) Lower blood pressure (3) Fever (4) Sinusitis
- xv) Chest pain, dizziness, nausea, breathing troubles are symptoms of
(1) Bronchitis (2) Pharyngitis (3) Palpitation (4) Pneumonia
