JESUIT CHRISTIAN MINORITY INSTITUTION

WORKSHEET - 5

Class: 9

Sub: GEOGRAPHY

Date- 10/04/2020

TOPIC: CONSERVATION OF RESOURCES

CHAPTER: 7

I. CHOOSE THE CORRECT OPTION.

(1X15=15)

1. **Conservation of resources refers to stop using resources totally.**
a. True b. Partly correct c. False d. Partly incorrect
2. **Rational use of resources means**
a. Overuse of resources b. misuse of resources c. No use of resources d. Careful use of resources
3. **Tick the odd one out.**
a. Conservation of resource means logical use of natural resource
b. Conservation of resources is not very essential
c. Some natural resources are limited and are exhaustible
d. Resources must be conserved in order to maintain ecological balance
4. **Role of Government in restricting the limitless extraction of resources is utmost.**
a. Hardly correct b. Partly correct c. Incorrect d. Correct
5. **Full utilization and functionality of resources refer to**
a. The capacity of something to work as it's designed
b. The action of making practical and effective use of something
c. Both a & b
d. Only a
6. **Conservation of resources is essential especially for**
a. Flow resources b. Ubiquitous resources c. Fund resources d. All
7. **The balance between the need to use resources and conserving them for future use is termed as**
a. Conservation of resource b. Sustainable development c. Utilization of resource d. All
8. **Resources can be conserved by**
a. Reducing wastage b. Recycling certain resources c. Reusing certain resources d. All
9. **By reducing the consumption of electricity we can save the precious resources of**
a. Petroleum b. Natural gas c. Trees d. Coal
10. **More and more use of ubiquitous resources can be made to conserve**
a. Fund resources b. Rare resources c. Flow resources d. Common resources
11. **Conservation of the quality of environment with all its resources is necessary as**
a. Life of people is threatened
b. Ecological balance is threatened
c. Resources might soon be exhausted
d. All of the above

- 12. Tick the odd one. Things we can do to conserve resources are**
- a. Switching off lights and fan when not in use
 - b. Open the taps even when not required
 - c. Use the excess water to water plants
 - d. Sharpen your pencil only when needed
- 13. Fund resources must be used cautiously and sparingly in order to**
- a. Expand the time span of their availability
 - b. Quickly exhaust the available fund resources
 - c. Increase the scope of their utility
 - d. None
- 14. By reusing papers and by recycling them we can save the natural resources of**
- a. Fish
 - b. Water
 - c. Coal
 - d. Trees
- 15. In order for the future generation to avail the natural resources we must**
- a. Make sustainable use of resources
 - b. Conserve the non-renewable resources
 - c. Try for full utilization and functionality of available resources
 - d. All of the above
