CLASS 6
WORKSHEET NO. :20

SUB: GENERAL SCIENCE

F.M. 15

TOPIC: BIOLOGY-CHAPTER-1-SCIENCE OF LIFE

DATE: 22.03.2021

A. CHOOSE THE CORRECT OPTION:

15x1=15

1. The average lifespan of bacteria is just _____ minutes.
a) 10b)20 c)30
2. The average lifespan of human beings is _____ years.
a)40-50b)60-100c)75-80
3. All living beings have certain characteristics that _____ them from nonliving things.
a)similar b)distinguish c)same
4. Organisms that consists of many cells are called _____ organisms.
a)multicellular b)unicellularc) single-celled
5. Living beings grow from _____.
a) the surfaceb) outsidec) inside
6. _____ is the process by which living organisms break down food to get energy.
a) Respirationb) Excretionc) Digestion
7. Nonliving things that show movement need _____ from outside to move.
a) helpb) strength c)energy
8. _____ is the process by which living organisms produce more of their own kind.
a) Excretionb)Respirationc)Reproduction
9. Organisms that consists of a single cell are called _____ organisms.
a) multi-celled b) unicellular c) multicellular

10. The _____ of an organism consists of birth, growth, reproduction, ageing and death.

- a) lifespan b) lifecycle c) life process

11. Energy is liberated from food during the process of _____.

- a) respiration b) digestion c) excretion

12. Plants throw out solid waste through their _____.

- a) stem b) roots c) leaves and bark

13. From the molecules that make up a living being to the interactions between a living being and its _____.

- a) surroundings b) atmosphere c) environment

14. _____ are concerned with every aspect of life.

- a) Chemists b) Biologists c) Physicists

15. _____, is an instrument that makes things appear larger.

- a) Magnifying glass b) Lens c) Microscope
