SAFETY AND FIRST AID

1. Answer the following questions.

- a. **How do accidents happen? What effects do accidents have on us? How can we avoid accidents?**

Ans. Accidents happen when we are careless. Accidents hurt or injure us badly. It may even take a long time to heal and become healthy again. We can avoid accidents by following safety rules at school, at home and on the road. These safety rules guide us to be safe and keep others around us safe as well.

- b. **Write any five safety rules that we must follow at school.**

Ans. The five safety rules that we must follow at school are

- We must not carry blades to sharpen pencils. We should use a pencil sharpener.
- We must always walk in a queue and should not push each other.
- We should not throw objects at anyone.
- We should not slide down the banister.
- We should not run up and down the staircase.

c. **Write any two safety rules which we should follow on the playground. Write any three safety rules which we must follow at home.**

Ans. The two safety rules which we should follow on the playground are.

- The rules of the game must be followed.
- We should always wait for our turn in games. We should not push others as they may get hurt.

The safety rules which we must follow at home are.

- We should not touch electric wire and sockets with wet hands.
- We should not take medicines without consulting the doctor as it may be harmful to you.
- We should not touch anything that is on the gas stoves as we may get burnt.

d. **Write down any five safety rules we must follow on the road.**

Ans. The safety rules which we must follow on the road are.

- We must cross the road at the zebra crossing.
- We must always walk on the pavement.
- We should use subways and overhead bridges to cross the road.
- We must not run on the road.
- We should always follow traffic lights and traffic rules.
