A JESUIT CHRISTIAN MINORITY INSTITUTION

Worksheet 24

Sub:Geography

Class:11

Date: 18-7-2020

Unit- 3 Vulcanicity, Intrusive Landform,Part 2 1st term .

1. Choose the correct answer
 - a. Who among the following put emphasis on radioactive material and earthquake as the causes of vulcanicity i)Macdonald ii)Jeffry iii)Pichon iv)J.Morgan.
 - b. Plate Tectonics is the main cause of earth quake ,who said this? i)Macdonald ii)Jeffry iii)Pichon iv)J.Morgan.
 - c. Earth is radiating heat and is shrinking ,who said this ? i)Macdonald ii)Jeffry iii)Pichon iv)J.Morgan.
 - d. How many geological hot spots are there in the world ? i) 20 ii)21 iii)22 iv)24.
 - e. Who among the following mentioned about the geological hot spots of the earth? i)Macdonald ii)Jeffry iii)Pichon iv)J.Morgan.
 - f. .Which islands among the following have formed due to hotspots or plume? i) Hawaii ii)Samoa iii)St. Helena iv)All of these.
 - g. Hot spots or plumes are responsible for earthquake,this theory was introduced in which year among the following ? i)1970 ii)1971 iii)1973 iv)1974.
 - h. Intrusion of molten magma forming vertical or inclined wall like masses in the rockbed is known as i)Sill ii)Dyke iii)Laccolith iv)Lopolith.
 - i. Intrusion of magma forming horizontal mass of rock in the rockbed is known as i)Sill ii)Dyke iii)Laccolith iv)Lopolith.
 - j. A flat bottom and a dome shaped upper surface formation by intrusion in the rock bed is known as i)Sill ii)Dyke iii)Laccolith iv)Lopolith.
 - k. A large saucer shaped intrusive igneous rock formed by intrusion of magma is known as i)Sill ii)Dyke iii)Laccolith iv)Lopolith.
 - l. A long lens shaped strip of igneous rock placed near the top of an anticline and bottom of a syncline formed by intrusion of magma is known as i)Batholith ii)Phacolith iii)Laccolith iv) Sill.
 - m. A large dome shaped mass of rock formed by the intrusion of magma is known as i)Batholith ii)Phacolith iii)Laccolith iv) Sill.
 - n. Which of the following formation is known as Saddle Roof by miners i)Batholith ii)Phacolith iii)Laccolith iv) Sill.
 - o. Mount Henry of North America is the example of which of the following rock formation?
 - p. i)Batholith ii)Phacolith iii)Laccolith iv) Sill.
