

ST. LAWRENCE HIGH SCHOOL

A JESUIT CHRISTIAN MINORITY INSTITUTION

Month of the following are released when decomposers break down dead organisms and excreta? 1) Oxygen (2) Nitrogen (3) Carbon Dioxide (4) Hydrogen in the following substances contributes to the formation of clouds? 1) Which of the following substances contributes to the formation of clouds? 1) Water vapour (2) Oxygen (3) Carbon Dioxide (4) All of these in the principle of the following substances contributes to the formation of clouds? 1) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3) Both (1) and (2) (4) None of these in the principle of the following substances convert solar energy to (1) Heat energy (2) Chemical energy (3) Potential energy (4) All of these (4) Decomposers (4) Destroyed (4) Destroy	ab: LIFE SCIENCE	Class	s: VIII Da	Date: 18.04.2020	
i) Which of the following are released when decomposers break down dead organisms and excreta? (1) Oxygen (2) Nitrogen (3) Carbon Dioxide (4) Hydrogen ii) Which of the following substances contributes to the formation of clouds? (1) Water vapour (2) Oxygen (3) carbon Dioxide (4) All of these iii) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3) Both (1) and (2) (4) None of these iv) By photosynthesis , plants convert solar energy to (1) Heat energy (2) Chemical energy (3) Potential energy (4) All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2) Producers (3) Scavengers (4) Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? (a) Tertiary consumers? (b) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid , at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Primary consumers (2) Producers (3) Secondary consumers(4) Apex predator xv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?		<u>Chapte</u>	r- 3 - Ecosystems	FM: 15	
excreta? (1) Oxygen (2) Nitrogen (3) Carbon Dioxide (4)Hydrogen ii) Which of the following substances contributes to the formation of clouds? (1) Water vapour (2) Oxygen (3)carbon Dioxide (4)All of these iii) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3)Both (1) and (2) (4)None of these iv) By photosynthesis , plants convert solar energy to (1) Heat energy (2)Chemical energy (3)Potential energy (4)All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is in ot a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze vii) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these vii) As we go up in a pyramid , at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?		WORKS	HEET - 11	(1x15=15)	
ii) Which of the following substances contributes to the formation of clouds? (1) Water vapour (2) Oxygen (3) carbon Dioxide (4) All of these iii) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3) Both (1) and (2) (4) None of these iv) By photosynthesis, plants convert solar energy to (1) Heat energy (2) Chemical energy (3) Potential energy (4) All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2) Producers (3) Scavengers (4) Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2) Above frogs (3) At apex (4) None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers (4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?		ng are released when deco	omposers break down de	ead organisms and	
(1) Water vapour (2) Oxygen (3) carbon Dioxide (4) All of these iiii) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3) Both (1) and (2) (4) None of these iv) By photosynthesis, plants convert solar energy to (1) Heat energy (2) Chemical energy (3) Potential energy (4) All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2) Producers (3) Scavengers (4) Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level	(1) Oxygen	(2) Nitrogen	(3) Carbon Dioxide	(4)Hydrogen	
iii) The phenomenon that helps in the formation of rainfall is (1) Transpiration (2) Respiration (3)Both (1) and (2) (4)None of these iv) By photosynthesis, plants convert solar energy to (1) Heat energy (2)Chemical energy (3)Potential energy (4)All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers (4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	ii) Which of the following	ng substances contributes	to the formation of clou	ds?	
(1) Transpiration (2) Respiration (3)Both (1) and (2) (4)None of these iv) By photosynthesis , plants convert solar energy to (1) Heat energy (2)Chemical energy (3)Potential energy (4)All of these v) Energy from primary consumers is passed on to-(1) Secondary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called-(1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by-(1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid , at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xii) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers (4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	(1) Water vapour	(2) Oxygen	(3)carbon Dioxide	(4)All of these	
iv) By photosynthesis , plants convert solar energy to (1) Heat energy (2)Chemical energy (3)Potential energy (4)All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid , at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	iii) The phenomenon th	at helps in the formation o	of rainfall is		
(1) Heat energy (2)Chemical energy (3)Potential energy (4)All of these v) Energy from primary consumers is passed on to- (1) Secondary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	•	·		(4)None of these	
v) Energy from primary consumers (2)Producers (3)Scavengers (4)Decomposers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	iv) By photosynthesis,	plants convert solar energy	/ to		
(1) Secondary consumers (2) Producers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2) Above frogs (3) At apex (4) None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	(1) Heat energy	(2)Chemical energy	(3)Potential energy	(4)All of these	
(1) Secondary consumers (2) Producers vi) At each step of the food chain, energy is (1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2) Above frogs (3) At apex (4) None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	v) Energy from primary	consumers is passed on to	0-		
(1) Lost (2) Gained (3) Created (4) Destroyed vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2) Above frogs (3) At apex (4) None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers (4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	(1) Secondary consum	ers (2)Producers	(3)Scavengers	(4)Decomposers	
vii) Secondary consumers can be represented as (1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid , at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	vi) At each step of the fo	ood chain, energy is			
(1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	(1) Lost	(2) Gained	(3) Created	(4) Destroyed	
(1) T1 (2) T2 (3) T3 (4) T4 viii) Which of the following represents the second trophic level or T2? (1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?	vii) Secondary consumer	rs can be represented as			
(1) Producers (2) Primary Consumers (3) Secondary consumers (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2) Tiger (3) Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2) Food web (3) Food mesh (4) Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3) Food web (4) None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4) Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2) Above frogs (3) At apex (4) None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2) Producers (3) Secondary consumers (4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?			(3) T3	(4) T4	
 (4) Tertiary consumers? ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers? 	viii) Which of the following	ng represents the second t	trophic level or T2?		
ix) Which of the following is not a top carnivore? (1) Lion (2)Tiger (3)Python (4) Eagle x) Interconnected food chains are called- (1) Food net (2)Food web (3)Food mesh (4)Food maze xi) The number organisms in trophic levels of a food chain is represented by- (1) Pyramid of numbers (2) Pyramid of energy (3)Food web (4)None of these xii) As we go up in a pyramid, at each level, the number of organisms (1) Increase (2) Decrease (3) Remains same (4)Increase or decrease xiii) Grasshoppers occupy the level in the pyramids of numbers (1) Above plants (2)Above frogs (3)At apex (4)None of these xiv) Which of the following is depicted as the narrowest part of the organisms (1) Primary consumers (2)Producers (3)Secondary consumers(4) Apex predator xv) Which of the following forms the base of the pyramid of numbers?
