

## ST. LAWRENCE HIGH SCHOOL

A JESUIT CHRISTIAN MINORITY INSTITUTION

## Sub:Geography

## Class:11

Date: 13-7-2020

Unit 3: Vulcanicity Part 1 First Term

- 1. Choose the correct answer
  - a. The word vulcanism originated from the i. greek god ii. <u>roman god</u> iii. persian god
    iv. Egyptian god Vulcan
  - b. The magma comes out from the asthenosphere at a depth of i. 30-80km ii. 30-50km iii. <u>80-160km</u> iv. 50-70km
  - c. When the temperature of the gaseous substances and water vapour is above 180°C
    it is known as i. Solfatara ii. <u>Fumarole</u> iii. Mafetti iv. Saffioni
  - d. When sulphur rich gas comes out having a temperature of 100-180°C it is known as i.
    <u>Solfatara</u> ii. Fumarole iii. Mafetti iv. Saffioni
  - e. Gaseous substances rich in Carbon Dioxide and Sulphur Dioxide having a temperature less than 100°C are i. Solfatara ii. Fumarole iii. <u>Mafetti</u> iv. Saffioni
  - f. Boric acid rich gas coming out of a volcano is known as i. Solfatara ii. Fumarole iii.
    Mafetti iv. <u>Saffioni</u>
  - g. Acidic lava is rich in i. silica ii. potassium ii. sodium iv. all of these
  - h. Basic lava is rich in i. iron ii. magnesium iii. silica iv. i and ii
  - i. Inside the ocean near the coast i. Aa Aa ii. Pa-Hoe-hoe iii. <u>pillow lava</u> iv. none of these types of lava can be found
  - j. A type of basic lava is coast i. Aa Aa ii. Pa-Hoe-hoe iii. pillow lava iv. none of these
  - k. Highest temperature of around 950°C is found in i. rhyolite ii. granitic iii. <u>basaltic</u> iv. all of these types of lava
  - When volcanic materials get deposited away from the volcano it is known as i. pyroclast ii. <u>tefra</u> iii. seoria iv. lapilli
  - m. When diameter of pyroclast ranges from 4-64mm the small perforated granules are known as i. pyroclast ii. tefra iii. seoria iv. <u>lapilli</u>
  - n. Burning ash and pyroclastic material are solidified to form a plateau in northern New
    Zealand island known as i. volcanic tuff ii. <u>Ignimlerite</u> iii. cinder iv. scoria
  - The perforated rock of pyroclastic materials of basalt and andesite is known as i.
    volcanic tuff ii. Ignimlerite iii. cinder iv. <u>scoria</u>
