

**ST. LAWRENCE HIGH SCHOOL**

**A JESUIT CHRISTIAN MINORITY INSTITUTION**

**TERM- 1**

**ANSWERS**

**Subject-Mathematics Worksheet- 9 Class – 5**

**Date- 26.02.21**

**Topic- GEOMETRY**

**CHOOSE THE CORRECT OPTION- (MCQ)**

**MARKS=1×15**

- Question 1  
An angle whose measure is more than 0 degree but less than 90 degree is called  
A. Acute angle
  
- Question 2  
An angle whose measure is 120 degree is  
A. Obtuse angle
  
- Question 3  
In a ray diagram measure of an angle is 180 degree it is known as  
A. Straight angle
  
- Question 4  
To construct an angle using protector the first step we do is to draw a  
A. ray
  
- Question 5.  
After measuring an angle it is found that its measurement is 360 degree ,it is  
A. Complete angle
  
- Question 6  
Angle whose measure is 250 degree is called  
A. Reflex angle
  
- Question 7  
Q. To draw 260 degree we have to first subtract  
A. 260 from 360

- Question 8  
The measure of an angle is not affected by  
A.length of its arms

Question 9

The third step to construct an angle using protector is to adjust the protector to \_----- the base line with drawn ray.

A.coincide

Question 10

Reflex angle measure is more than -----and less than \_\_\_\_\_.

A.180 degree,360 degree

- Question 11  
The measure of complete angle is -----  
A.360 degree

- Question 12  
To construct the angle we should place the centre of the protector on the  
A. End point of the ray

- Question 13  
We can ----- both the scales in the protector  
A.use

- Question 14  
The number of degrees in an angle is called -----  
A.measure

- Question 15.  
Two lines lying in the same plane is called  
A.coplanar lines

Teacher- Piyali Halder
