2nd Term

CLASS – IV

ANSWER: WORKSHEET – 19

DATE: 10.11.2020

SUBJECT – ENGLISH TEXT

LESSON – THE FLOOD

Answer the following questions:-

1. Who was Deucalion? Who was Pyrrha to him?

Ans: Deucalion was only a common man like any of us. He was not a Titan like his great father. He was known far and wide for his good deeds. He could never do anything wrong. Pyrrha was his wife and she was one of the fairest of all.

2. Who was Jupiter? Why did he become angry with the people on Earth?

Ans: Jupiter was the Greek God. He became very angry with the people on Earth as they became very wicked. They no longer lived together in peace. Every man was at war with his neighbour. There was neither law nor safety anywhere.

3. What did Jupiter decide to do with the people on Earth and why?

Ans: Jupiter decided to destroy every one of them. He felt that the people on Earth are nothing but a source of trouble. When the people were good and happy, Gods felt afraid that they would become greater than themselves. When the people were terribly wicked, the Gods felt that they were in more danger than before. So, Jupiter, the Greek God decided that there is only one thing to be done with the people and that is to destroy them.

4. Why did Jupiter send a great rainstorm upon the Earth? What happened after that?

Ans: Jupiter sent a great rainstorm upon the Earth because people had become terribly wicked. He wanted to destroy every one of them. It rained day and night for a long time. The sea was flowing to the brim. The water ran over the land and covered the plains, the forests and the hills.
