ANSWER KEY – 03
TOPIC – EVOLUTION OF COMPUTERS & COMPUTER ORGANIZATION

SUBJECT: COMPUTER APPLICATION **CLASS: XI**
F.M.:15 **DATE: 17.06.2020**

➢ **Choose the correct option:** (1X15=15)

1) Multimedia files are delivered to a client across the network using a technique known as
(a) Streaming (b) Playing (c) Transmitting (d) None of these

2) A collection of facts or raw materials:
(a) Data (b) Information (c) Note (d) None of these

3) Processed raw data is:
(a) Data **(b) Information** (c) Note (d) None of these

4) Brevity is a quality related to:
(a) Data **(b) Information** (c) Note (d) None of these

5) During this phase the data to be processed is loaded into the computer system:
(a) Input (b) Output (c) Process (d) None of these

6) The processed data is made visible to the user in this phase:
(a) Input **(b) Output** (c) Process (d) None of these

7) This phase is used to modify the input data to get the desired information:
(a) Input (b) Output **(c) Process** (d) None of these

8) This involves data processing related to the internal working of a business for proper business management:
(a) MIS (b) DSS (c) EDPS (d) TPS

9) The full form for EDPS is:
 (a) Essential Data Processing System
 (b) Electronic Direct Processing System
 (c) Electronic Data Processing Scheduler
 (d) Electronic Data Processing System

10) This is a computer in data processing system that supports a MIS and deals with business decision making activities:

(a) MIS   **(b) DSS**   (c) EDPS   (d) TPS

11) Computers are used to process data electronically where the process is fast and accurate and the data can be stored and retrieved later. This electronic processing of data is known as:

(a) MIS   (b) DSS   **(c) EDPS**   (d) TPS

12) Such a system is used to process data during a transaction in database system:

(a) MIS   (b) DSS   (c) EDPS   **(d) TPS**

13) The full form for DSS is:

(a) Decision Support System
(b) Data Support System
(c) Decision Software System
(d) None of these

14) The full form for TPS is:

(a) Transaction Processing Schedule
(b) Transaction Priority System
(c) Transaction Processing System
(d) None of these

15) The full form for MIS is:

(a) Management Information Scheduler
(b) Management Information System
(c) Micro Information System
(d) None of these
