

ST. LAWRENCE HIGH SCHOOL

A Jesuit Christian Minority Institution

WORKSHEET -1

Topic – Development of Computers

Subject: COMPUTER Class - 7

F.M:15

Chapter: About a Computer

Date: 16/01/2021

Choose the correct answer for each question:

15x1=15

- Which generation computers used transistors?
 - First
 - Second
 - Third
 - Fourth
- What technology was used in third generation computers?
 - Transistors
 - Vacuum tubes
 - ICs
 - SLSI
- In the first generation computers, _____ were used.
 - Transistors
 - Vacuum tubes
 - ICs
 - SLSI
- In the fifth generation computers, _____ are used.
 - Transistors
 - Parallel processing and AI
 - Vacuum tubes
 - SLSI
- Which generation computers used LSI and VLSI chips?
 - First
 - Second
 - Third
 - Fourth
- The year 2020 falls in _____ generation computers.
 - First
 - Second
 - Fourth
 - Fifth
- Which of the following are examples of Fifth generation computers?
 - Supercomputers
 - Quantum Computers
 - Nano computers
 - All of these

8. Which of the following is not an example of first generation computers?
- ENIAC
 - EDVAC
 - EDSAC
 - None of these
9. ENIAC stands for _____.
- Electronic Numerical Integrator And Computer
 - Electronic Numerical Integrator And Calculator
 - Electronic Numerical Integrator Automatic Computer
 - Electronic Numerical Integrator Automatic Calculator
10. A computer works on _____ mechanism.
- CPO cycle
 - IPO cycle
 - POC cycle
 - None of these
11. A computer accepts data from:
- Monitor
 - Printer
 - Keyboard
 - All of these
12. A computer gives the output through:
- Monitor
 - Printer
 - Speaker
 - All of these
13. Which of the following are examples of fourth generation computers?
- Supercomputers
 - Quantum Computers
 - Nano computers
 - Personal computer
14. Which is the correct order of IPO cycle?
- Input-output-process
 - Output-input-process
 - Input-process-output
 - Process-input-output
15. Which is not an example of output device?
- Printer
 - Monitor
 - Speaker
 - None of these
