WORKSHEET – 41

(1x15=15)

i) The causative agents for influenza is

- (1) Bacteria (2)Virus (3)Fungi (4) Protozoa

ii) The virus that causes measles is

- (1) *Measles morbiditus* (2) *Measles morbidvirus* (3) *Measles morbillivirus* (4) *Measles morabilis*

iii) The full form of MMR is -

- (1) Measles, Mumps and Rubella (2) Measles , Malaria and Rabies (3) Measles Mumps and Rabies (4) Measles, Mumps and Rubella

iv) The full form of MMRV is

- (1) Measles ,Mumps , Rubella and Varicella (2) Malaria, Mumps rabies Vaccine (3) Malaria, Mumps and Rabies Virus (4) Measles , Malaria and Rubella Virus

v) Malaria is caused by-

- (1) Virus (2) Bacteria (3)Fungi (4) Protozoan

vi) The microorganism that causes Malaria is

- (1) *Plasmodium* (2) *Paramoecium* (3) *Trypanosoma* (4)*Leishmania*

vii) Malaria is transmitted by _____ mosquito

- (1) Aedes (2) Anopheles (3) Culex (4) All of these

viii) Which of the following diseases are transmitted by *Aedes aegypti*

- (1) Dengue (2) Chikungunya (3) Both (1) and(2) (4) Malaria

ix) Fever, bodyache and headache are the common symptoms of-

- (1) Malaria (2) Dengue (3) Chikungunya (4) All of these

x) AIDS is caused by -

- (1) Bacteria (2) Virus (3) Fungus (4) Protozoa

xi) The full form of AIDS is -

- (1) Acquired Immuno Deficiency Syndrome (2) Acute Immuno Deficiency Syndrome (3) Acute Infection Dependence Syndrome (4) Acquired and Innate Deficiency Syndrome

xii) The virus that causes AIDS is -

- (1) HIV (2) HYV (3) HEV (4) HAV

xiii) Which of the following will transmit AIDS?

- (1) Mother's milk (2) Blood (3) Semen (4) All of these

xiv) Swollen glands are observed in-

- (1) Measles (2) Dengue (3) AIDS (4) Malaria

xv) Which of the following can be cause of AIDS?

- (1) Shaving blades (2) Towels (3) Clothes (4) Food
