Write a paragraph on the topic "Pollution".

Paragraph on Pollution

Pollution is the addition of unwanted substances into the environment that can damage our Earth. There are four main types of pollution; water pollution, air pollution, noise pollution and soil pollution. All kinds of pollution are a result of careless activities by man. We dump waste into water bodies, which results in water pollution. Air pollution is caused when vehicles release smoke into the atmosphere and make it difficult to breathe for all organisms. Noise pollution is caused by the unnecessary blowing of horns by the vehicles. Lastly, soil pollution is caused by cutting and uprooting of trees.
