## TIME

A clock is an instrument to measure time. The face of a clock shows only 12 hours but actually there are 24 hours in a day. There are 2 hands in a clock, one hand is a short hand which we say hour hand and the other hand is long hand which we say minute hand. Both these hands keep moving and it helps us to know the correct timing.

### I. Fill in the blanks.

- 1) A clock is an instrument to measure time.
- 2) A clock has two hands.
- 3) The smaller hand is called the hour hand and the larger one is called minute hand.
- 4) There are 12 months in a year.
- 5) February has 29 days in every fourth year and is called a leap year.

### II. Tell the time.

- 1) Hour hand in 2 and Minute hand in 12 – 2: 00 or 2 o' clock
- 2) Hour hand in 10 and Minute hand in 12 – 10: 00 or 10 o' clock
- 3) Hour hand in 3 and Minute hand in 12 – 3: 00 or 3 o' clock
- 4) Hour hand in 1 and Minute hand in 6 – 1: 30 or half past 1
- 5) Hour hand in 8 and Minute hand in 6 – 8: 30 or half past 8

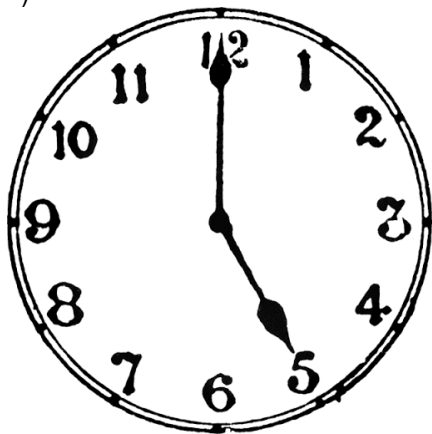

### III. Write the time shown in the figures below.

1)

Answer: - 4: 00 or 4 o'clock

2)

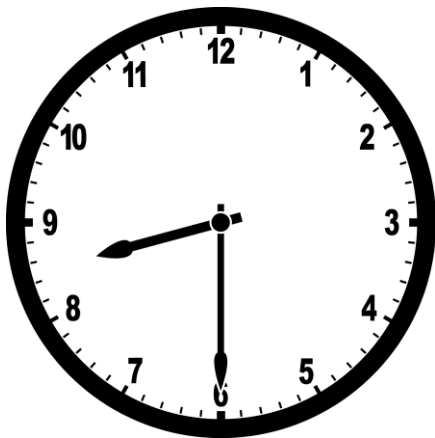

Answer: - 5: 00 or 5 o'clock

3)

Answer: - 12: 00 or 12 o'clock

4)

Answer: - 8: 30 or 30 minutes past 8 or half past 8

5)

Answer: - 6: 30 or 30 minutes past 6 or half past 6

**IV. Write the month.**

- 1) This month is June
- 2) Next month will be July
- 3) Last month was May
- 4) My birthday is in the month of August ( write your birthday month )
- 5) February is the shortest month of the year.
