

ST. LAWRENCE HIGH SCHOOL

A Jesuit Christian Minority Institution

WORKSHEET -5

Topic – Software, Operating System, Utility Softwares

Subject: COMPUTER

Class - 5

F.M:15

Chapter: Types of Software

Date: 11/05/2020

Choose the correct answer for each question

15x1=15

- Which of the following is designed to control the operations of a computer?
 - Hardware
 - System software
 - Utility software
 - All of these
- _____ performs a specific task and supports our operating system.
 - System software
 - Utility software
 - Both (a) and (b)
 - None of these
- Which of the following is an example of system software?
 - Operating system
 - Developing tools
 - Debugging tools
 - All of these
- _____ manages all other applications.
 - MS Paint
 - Operating System
 - MS Word
 - None of these
- Example of operating system(s):
 - Linux
 - Windows
 - Both (a) and (b)
 - MS PowerPoint
- Which of the following is a function of operating system?
 - Device Management
 - File Management
 - Security Management
 - All of these
- Which of the following is not a type of operating system?
 - Real-time
 - Single-user
 - Multi-user

- d. None of these
8. In _____ operating system, users are allowed to run more than one task by CPU.
- a. Multi-tasking
 - b. Multi-processing
 - c. Real-time
 - d. Single-user
9. Which among the following has the ability to support more than one processor?
- a. Multi-tasking
 - b. Multi-processing
 - c. Real-time
 - d. Single-user
10. _____ is an operating system that guarantees a certain capability within a specified time constraint.
- a. Multi-tasking
 - b. Multi-processing
 - c. Real-time
 - d. Single-user
11. Which of the following is designed to free up disk space on a computer's hard drive?
- a. Disk Defragmentation
 - b. Anti-Virus
 - c. Disk Cleanup
 - d. None of these
12. _____ helps in encoding an important file with the help of key.
- a. Disk Defragmentation
 - b. Anti-Virus
 - c. Disk Cleanup
 - d. None of these
13. _____ helps in reduced file size to save disk space for easier and faster transmission over a network or the Internet.
- a. Disk Defragmentation
 - b. Anti-Virus
 - c. File compressor
 - d. None of these
14. Which among the following allows a single user to access a system?
- a. Multi-user OS
 - b. Real-time OS
 - c. Single-user OS
 - d. All of these
15. When a file is spread out over several locations, it takes longer to read and write. Which software is required to solve this issue?
- a. Disk Cleanup
 - b. Disk Defragmentation
 - c. MS Excel
 - d. All of these
