2ND TERM

I WONDER - POEM

ANSWERS - WORKSHEET – 11

Answer the following questions:

Q1) What are the things the little girl wonder about in the first four lines?

A1) In the first four lines of the poem 'I Wonder' the little girl wonders about certain things that she observes around her. Her innocent mind questions her about the green colour of the grass, why are they not of any other colour! She also can't find an answer when her curious mind wants to know who must have taught the birds to build nests and by whose instructions the trees never move.

Q2) What are the things the child wonder about in the sky?

A2) The child wonders about all the natural phenomenon that she witnesses in the sky. She thinks the other part of the moon is hidden somewhere when it doesn't appear to be round . She cannot understand from where do the stars get light or how does lightning take place. She tries to find an answer behind the amazing colours of rainbow and the floating of the fluffy clouds across the sky.

Q3) Why does she wonder about all the things mentioned in the poem?

A3) The poem reflects the mind of a little girl. She is too young to understand the logic behind all phenomenon that are witnessed in the nature. To her everything happens probably like magic, which is beyond her comprehension. That is why she wonders about all the natural phenomenon mentioned in the poem.
