ST. LAWRENCE HIGH SCHOOL

A Jesuit Christian Minority Institution

WORKSHEET -1

Topic – Characteristics of Computer

Subject: COMPUTER   **Class - 6**   **F.M:15**

Chapter: Computers   **Date: 16/01/2021**

Choose the correct answer for each question   15x1=15

1. A computer is an electronic machine that operates by following a set of _____.
   a. Programs
   b. Softwares
   c. Instructions
   d. Wires

2. _____ is/are used in big offices and in projects like weather analysis and prediction.
   a. Supercomputer
   b. Mainframe
   c. Server
   d. All of these

3. Speed of a computer is measured in _____.
   a. GBPS
   b. KMPH
   c. MIPS
   d. MBPS

4. MIPS stands for:
   a. millions of instructions per second
   b. many instructions per second.
   c. making few instructions per second.
   d. millions of iterations per second.

5. The accuracy with which a computer works denotes its _____.
   a. Reliability
   b. Precision
   c. Versatility
   d. All of these

6. Since computer is _____, it can be used to perform completely different type of work at the same time.
   a. Versatile
   b. Accurate
   c. Precise
   d. Faster

7. _____ can carry out billions of instructions per second.
   a. Supercomputers
   b. Workstation
   c. Desktop
   d. Mainframe

8. Errors in computer processing are due to:
   a. Human errors in giving inputs
   b. Presence of virus

    c. Due to bugs in programming

    d. All of these

9. A computer works on _____ mechanism.

    a. CPO cycle

    b. IPO cycle

    c. POC cycle

    d. None of these

10. A computer accepts data from:

    a. Monitor

    b. Printer

    c. Keyboard

    d. All of these

11. Computer has _____, hence it is capable of storing huge amounts of data.

    a. Emotions

    b. Speed

    c. Memory

    d. None of these

12. Computers are devoid of emotions, therefore they are _____.

    a. Versatile

    b. Accurate

    c. Precise

    d. Reliable

13. Computers is a machine. It possess:

    a. Mental issues

    b. Emotions

    c. physical fatigue

    d. None of these

14. Computer memory can be classified as:

    a. Primary

    b. Secondary

    c. Tertiary

    d. Both (a) and (b)

15. Examples of personal computers:

    a. Workstation

    b. Tablet

    c. Laptop

    d. All of these
