

ST. LAWRENCE HIGH SCHOOL

A Jesuit Christian Minority Institution

WORK SHEET 4

CLASS -VI

SUBJECT -ALGEB & GEOM CHAPTER 22 - LINEAR SYMMETRY

F.M - 15

Date - 17.04.20

TOPIC - REFLECTION

I. Multiple choice questions : (Select the correct option)

(15)

1. A figure and its image after reflection in the mirror line are symmetrical. This is called _____ symmetry.

a) reflective b) refractive c) perpendicular d) none of these.

2. A reflection in a line produces a _____ image.

a) negative b) old c) mirror d) none of these.

3. The line of fold is called the _____ of symmetry.

a) angle b) circle c) axis d) none of these.

4. A reflection in a line produces a mirror image. The image is the _____ size but it is a reflection of the original shape.

a) same b) bigger c) smaller d) none of these.

5. Mirror line is also called as the _____ line.

a) new b) equal c) refraction d) reflection .

6. Reflection line is also called the line of _____.

a) radius b) angle c) distance d) symmetry

7. Images are as far behind the _____ line as the objects are in front .

a) inverted b) angular c) mirror d) none of these.

8. Reflection line is found by using _____ lines.

a) perpendicular b) parallel c) intersecting d) none of these.

9. The line of reflection is the perpendicular _____ of the line joining any point on the object and its image.

a) point b) bisector c) angle d) none of these.

10. A figure and its image after reflection in the mirror line are _____.

a) angular b) asymmetrical c) symmetrical d) none of these.

11. When a figure can be folded in half so that the two parts match exactly in shape and size, the figure is said to be_____.

a) unique b) normal c) horizontal d) symmetrical.

12. Which letter together with its mirror image will form the letter W ?

a) Z b) A c) S d) V .

13. A _____ triangle has no lines of symmetry.

a) scalene. b) isosceles c) equilateral d) none of these.

14. Which letter together with its mirror image will form the letter O ?

a) Z b) A c) S d) C .

15. Which of the following letters does not have a vertical line of symmetry ?

a) M b) H c) E d) V

By – U. James Riju.
