ANSWER: WORKSHEET- 4

Class: 3

Subject: SCIENCE

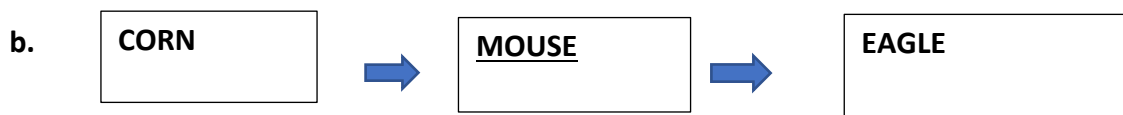

Date: 23.04.2020

Animals - Food and Feeding Habits

1. Fill in the blanks:

- Giraffes have a long neck to eat leaves from branches of very tall trees.
- Vultures and hyenas eat the remains of dead animals.
- Chewing the cud is also called rumination.
- Butterflies suck the nectar using a special mouthpart – a thin long tube.
- Cows and buffaloes bite and cut the grass, leaves and plants with their sharp front teeth and swallow them.
- Biting off small bits of food with the front teeth is called gnawing.
- Carnivores have strong back teeth for grinding bones.

2. Complete the food chain.

NECTAR

BUTTERFLY

<u>FROG</u>

SNAKE
