Rainy Season

Rainy season comes after Summer. It started in the month of June
and goes on till September. It rains for days, clouds are always
dark and the sun hides behind the clouds. Rainy season gives us
different types of fruits, flowers, and vegetables from plants and
trees. People cook lots of dishes like pakoras, halwa and soups
in order to enjoy the rainy season. The weather remains cool and
pleasant. The trees look green and beautiful. Many places get
flooded up and cause damage. Rivers and ponds get filled up with
water. Rainy season is one of the best seasons for me.
