Model Paragraph

1. Write ten sentences on a 'Coconut tree'.

A Coconut tree is tall. It has a long and smooth trunk which looks like a long stick.

It does not have any branches. It has long green leaves at the top.

It grows in areas near the sea or near the beach. The tree gets its name from the fruit which grows on it. The fruit of the tree is hard outside but soft inside. The coconut tree is very useful to us in many ways. The leaves of the trees are used to build the roofs of huts and fence in villages. We get tender coconut water and coconut oil from the coconut tree.
